Ways to train

- Types of learning
- IBM Certifications
- IBM Learning Interactive Training
- IBM Learning Subscriptions

With varied learning options, IBM Learning helps clients, partners, and IBMers develop and grow skills with ease and confidence.

IBM Learning offers:

Self-paced enables learners to work through training on their own, no lab time needed.

Self-paced with labs allows learners to work through training on their own with lab time.

Instructor-led online provides online course delivery by a live instructor.

Instructor-led in-person delivers courses live in-person by an instructor.

Practicums give groups a use case problem and five days to propose a solution.

IBM Learn ‘n Score

Game on!

Earn points, level up!

Let's go

FAQs

Earn points, level up!

Take learning to a new level with IBM Learn ‘n Score. Brought to you by IBM Learning, this new gaming experience makes learning with IBM both fun and rewarding!

Embark on exciting missions, or challenges, that help you learn while earning points and trophies. Complete challenges (we call them missions) like earning certifications, starting new learning paths, participating in labs, and more. Each mission boosts your knowledge and racks up experience points (XP) to show what you know as a learning leader.

Ready to rise to the challenge and level up with your success? Let’s make it happen!

Why IBM Learn ‘n Score?

- Earn XP through missions to level up
- Show off your achievements on the leaderboard and by earning trophies
- Expand your knowledge and have fun in the process

Let's go

To participate in IBM Learn ‘n Score program, we need your permission to register you with our partner. You can change this setting at any time. However, until the time you opt-in, you will not be able to participate or take advantage of these features.
